# Labelling Systems

## Shipping Label Kit

The kit produces an A6 format label containing information for the delivery and installation of door and window frames. The kit includes a labeller and software.

## Piece Label Kit

The kit produces a label for each piece on a roll, sorting them by “profile code” and following the order of the optimised cutting list. The kit includes a labeller and software.

## CE and identification label kit

The kit produces a weather-proof plastic label with the CE marking data and the identification code of the frame. The kit includes a labeller and software.

## Portal [www.serramentice.it](http://www.serramentice.it)

Access the portal [www.serramentice.it](http://www.serramentice.it) and enter the identification code of the frame to download the relevant CE documentation. By scanning the QR code with a smart-phone or tablet you can go directly to the aforementioned documentation.
